SUPPORTING BIOMEDICAL INVESTIGATION

900 THIRD AVENUE  
NEW YORK, NY 10022  
(212) 421-8885

ARTHUR D. EISENBERG, PH.D.  
ASSOCIATE RESEARCH DIRECTOR

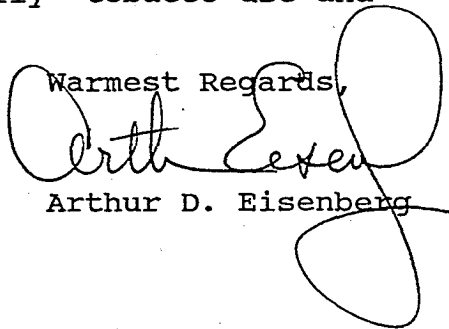

December 2, 1991

Dear Virginia:

I have been meaning to write to you and your letter about the "Make-a-Wish" child was enough of an impetus. My grant money fell short at EDC. Now I am a grants manager at CTR in Manhattan. I live in Connecticut and commute by train.

Perhaps you or your colleagues can use us for support. We are tough to get money from and support primarily molecular biological approaches to cancer and heart disease (these are "generally" tobacco use and health related.)

Warmest Regards,

A handwritten signature in cursive script, appearing to read 'Arth Eisenberg', is written over the typed name. The signature is enclosed within a large, loopy circular flourish.

Arthur D. Eisenberg
